

Real Estate Industry Project Group 1

Minutes: September 8th, 2pm

Group Members:

- Bike Pham
- Du-Simon Nguyen
- Jordan Chao
- Stanislaw Zaranski
- Zhi Jian Damyan Ang

Agenda:

1. Recap work done over the past week and understand external datasets chosen
2. Discussion on how to proceed with exploratory data analysis/basic preprocessing for external datasets
3. Task allocation
4. Expected outcomes for next week

Project Task Allocation:

We will each work on cleaning and exploring the following external datasets:

- Bike Pham: Population Projections Data
- Du-Simon Nguyen: PTV Data
- Jordan Chao: School Location Data & Provided Real estate Data
- Stanislaw Zaranski: Census Data
- Zhi Jian Damyan Ang: Crime Data

Decisions and next steps:

- Clean and format the external datasets
- Remove unnecessary features not relevant to our analysis
- Figure out how to integrate external datasets with the real estate dataset once it is provided.

Signed on September 8th:

- Bike Pham
- Du-Simon Nguyen
- Jordan Chao
